

MCN 2023 Impact Report

Migrant Clinicians Network, a 501c3 nonprofit, creates practical solutions at the intersection of vulnerability, migration, and health. In 2023, we connected more clinicians to training, built more culturally contextual resources, and directly supported the health of individuals in underserved communities, more than ever before.

Connecting Patients with Essential Care

MCN's [Health Network](#) (HN) associates create a link between mobile patients and health care providers across the country. In 2023, their efforts ensured

1,710 people
were provided
care coordination.

About **68%** of Health Network patients last year needed prenatal care.

284 babies were
born to migrants that
received care through
Health Network.

In collaboration with Uber's ride service, HN was able to remove one of the many barriers to care by providing patients with

90 free rides to health
care appointments.

Education & Technical Assistance

Our popular [learning opportunities](#) for health care workers brought together

5,388
participants

and they received **332** hours
of training.

We offer continuing education credits for doctors and nurses, as well as community health workers, issuing

923
certificates
of completion.

Our [archived webinars](#) allow clinicians to access the latest info on a range of health topics and resulted in a total of

723
hours of webinar
recordings watched.

Community Engagement

MCN provides organizational support for three **Ventanilla de Salud** locations, assisting them in offering services for their communities including:

4,770 vaccinations for Flu, HPV, COVID, Tdap, Shingles, and Hep A/B.

16,803 screenings including kidney, eye, cholesterol, and cancer.

Health info sessions that delivered health education to **31,067** community members.

Building Clinician and Organizational Resilience

MCN's Witness to Witness (W2W) offers trainings and peer support groups for clinicians serving historically marginalized communities.

18 trainings and support sessions organized

11 new resources to improve clinician well-being

Environmental Justice & the Climate Crisis

MCN is a leader in trainings to keep workers safe on the job despite climate change, excessive heat, and emergency disasters. On these critical topics, MCN conducted

32 trainings that reached **1,863** attendees.

Trained **140** trainers from every corner of the US and Puerto Rico on COVID and worker safety. These trainers reached at least **3,300** more people.

Our Recognitions

MCN was recognized as a **2023 American Climate Leadership Award finalists** by EcoAmerica.

MCN is a Top-Rated Nonprofit on **GreatNonprofits** with many 5-star reviews.

MCN has a Platinum Seal of Transparency on **Candid's GuideStar**.
