

Who Can Get the 2024-2025 COVID-19 Vaccine

Everyone 6 months and above are eligible for a vaccine:

Elderly and People with
weakened immune systems

1 dose and check with your health care provider for timing for additional doses

People Ages 5+

1 dose and check with your health care provider about timing

Unvaccinated Children
6 months – 4 years

2 doses of the Moderna vaccine
or
3 doses of the Pfizer-BioNTech vaccine

Vaccinated Children
6 months – 4 years

The number of vaccine doses depends on the brand and the child's vaccination history

Timing:

- If you recently had a COVID-19 infection you may consider delaying your vaccine by 3 months. Talk to your health care provider.
- If previously vaccinated, most people are eligible for another dose 2 months after their last dose

Vaccine doses:

- There are three brands of vaccines: Pfizer or Moderna (mRNA vaccines) and Novavax (protein-based).
- Those who are 6 months-11 years can only be vaccinated with Pfizer or Moderna vaccines.
- Those 12+ who have never been vaccinated only need one dose of Pfizer or Moderna, or 2 doses of Novavax.
